Dear Friends,

The Holstein Foundation, established in 1989, is dedicated to providing prospective dairy industry leaders the education, self-confidence, and network to succeed in the business long-term. Their cornerstone program, Young Dairy Leaders Institute (YDLI), has graduated over 400 alumni in five classes. The Holstein Foundation has never been stronger financially, has a solid investment policy, and an experienced firm managing its assets.

Ensuring A Vibrant Future
For The Dairy Industry

HOLSTEIN FOUNDATION

Over the last two decades, numerous changes in the industry have prompted the Foundation to develop a renewed mission – to promote and support programs that develop leadership for the dairy industry. Bottom line, the Holstein Foundation wants to develop more dairy leaders for tomorrow. Recognizing that times are tough in the dairy industry, we realize the need for leadership has never been greater. Using its expertise to address the need, the Holstein Foundation recently established an endowment dedicated to dairy leadership training.

We care about the future of the dairy industry, and have supported the Holstein Foundation over the years. After seeing the YDLI Class 6 program first hand in Albuquerque, we made the decision to support the Holstein Foundation's Dairy Leaders for Tomorrow Campaign. By joining us in support of this campaign, your donation will be invested in the people who will continue to make this industry so great.

Also joining in this commitment is Holstein Association USA, who has pledged a dollar-for-dollar match, up to \$1 million, for monies raised in the campaign. With this match, your gift will further impact our leadership programs and amplify your investment. To take full advantage of their pledge, and express your commitment to the future of the dairy industry, we invite you to join us in supporting the Dairy Leaders for Tomorrow Campaign.

Sincerely,

Judy & Charles Lager
